INTRODUCTION TO PULSE ZEN

Pulse Zen is the first socially engineered crypto asset that presents a unique opportunity.

Innovative PIF mechanism enables social benevolence, imbuing the community with a tremendously positive feeling of self worth.

On going unique tokenomics make this a surprising opportunity for all.

Safe guarded from manipulation by whales and full transparency means this is an opportunity you can trust.

KEY TAKEAWAYS

Pulse Zen has been designed with advanced tokenomics which makes this a winning opportunity.

PIF for each transaction a 2% deduction is applied and distributed evenly amongst all holders.

Deflationary a burn function is called for every transaction of 0.01% over time this reduces the supply making Pulse Zen more scarce.

A charity fee of 0.2% is applied for every transaction this wallet will then be distributed via a DAO vote.

Anti-whale mechanism prevents manipulation of the price.

WHY PULSE ZEN?

Cryptocurrency being a nascent asset class, lends itself to scams and other nefarious activities.

Pulse Zen philosophy is very simple, allow the market to achieve market consensus value and present an opportunity that benefits the whole ecosystem.

Launched on ETH you will obtain a copy of your tokens on the Pulse chain when it launches. This brings even further exciting opportunities.

If ETH 2.0 is launched you are likely to end up with a third copy of your coins

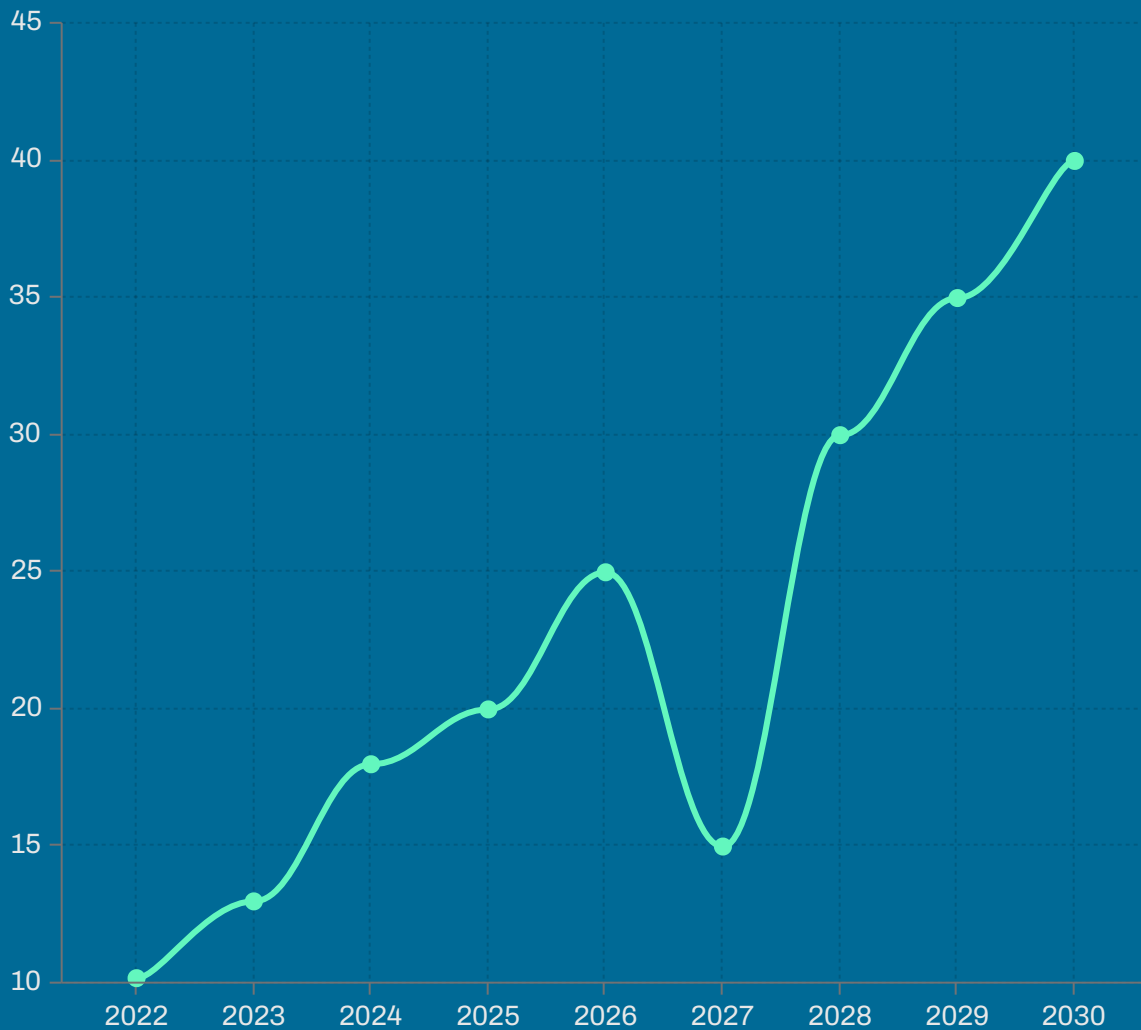

FUTURE PROSPECTS

We all know that early adopters tend to gain the most in any asset class.

Cryptocurrency is currently the highest appreciating asset class and is likely to just keep growing

Being a founding adopter in Pulse Zen creates a tremendous opportunity for you, especially in the current market conditions.

Take action now and watch what happens.

IN CONCLUSION

Disclaimers: this document is a white paper explaining the opportunity that is Pulse Zen

In no way should it be taken as financial advice and does not represent an investment offer.

Crypto currency valuations are highly volatile and can go down as much as 95% or more.

Currently Pulse Zen is available via the website pulsezen.app
